The StagePro Presidential Pair are ultra adjustable with easy, tool-less set-up. The monitor is self-reversing and can display prompting with either the included PC and Mac software or with any presentation software such as PowerPoint or Keynote.

- o Fast, easy setup with necessary cables and hardware
- o Easily readable to over 17 feet
- o Mac and PC software included
- o Upgradable to 17,19, 24 inch monitor sizes
- o Adapter available for iPad
- o High Bright 1000 NIT monitors available for outside use
- o Flip-Q Pro software for Mac and PC included

o

The StagePro Presidential Pair design utilizes custom aluminum hardware for high strength, featuring lightweight and tool-less setup and operation. The reversing monitors allow for prompting using text or presentations using the included Flip-Q Pro software for PC and Mac. 2 teleprompters are included alongwith a distribution amp and 25 foot extension cables. The included monitor offers a variety of inputs including VGA, composite and HDMI. The lightweight, long life LED backlit display offers a bright 400 nit image (nit is the unit of visible-light intensity), High Bright monitors for outside use are available. A durable flight case is available.

Partial Product Highlights

Beamsplitter

- o 60/40 is standard, 70/30 available as a no-cost option
- o *(1) Beamsplitter size 14" x 12", beveled edges for safety
- o Ultra clear, low iron glass eliminates color shift
- o Antireflection coatings prevent glass reflections

Monitor

- o 15", 17", 19" and 24" diagonal available
- o Built-in reversing
- o VGA, HDMI composite inputs
- o LED backlit
- o AC adapter included, battery operable

*Self-reversing. The display of the text's reflection in glass reads backwards. Our prompting software reverses the text so it is readable.
