

# Prompter People

## Key products and features for re-sellers

As a Prompter People reseller you can offer the widest range of teleprompters from compact iPad teleprompters to large teleprompters for studios and PTZ cameras.

All Prompter People monitors are reversing monitors so anything the customer sees on his computer can be used to prompt; text, PowerPoint or web content. No need to use software to flip the image, no complicated computer setup. Our monitors have HDMI, VGA and composite inputs with HD-SDI available.

Design, support and assembly in Campbell, CA USA.

Easiest setup, most prompters ship assembled.

USA made high quality glass
